

DynamicObject

IEnumerable< object >

System.Web.Helpers.DynamicJsonArray

```
classDiagram
    class DynamicObject
    class IEnumerable["IEnumerable< object >"]
    class DynamicJsonArray["System.Web.Helpers.DynamicJsonArray"]
    DynamicObject --|> IEnumerable
    DynamicJsonArray --|> DynamicObject
```

The diagram illustrates the relationship between three classes. At the top, 'DynamicObject' and 'IEnumerable< object >' are shown as separate entities. A horizontal line with arrows at both ends connects them, indicating that 'DynamicObject' implements the 'IEnumerable< object >' interface. Below this line, 'System.Web.Helpers.DynamicJsonArray' is shown in a box. A vertical line descends from the center of the horizontal line to the top of the 'System.Web.Helpers.DynamicJsonArray' box, indicating that 'DynamicJsonArray' inherits from 'DynamicObject'.
