

DynamicObject

IEnumerable< object >

System.Web.Helpers.DynamicJsonArray

```
classDiagram
    class DynamicObject
    class IEnumerable["IEnumerable< object >"]
    class DynamicJsonArray["System.Web.Helpers.DynamicJsonArray"]
    DynamicObject --|> IEnumerable
    DynamicJsonArray --|> DynamicObject
```

The diagram illustrates the relationship between three classes. At the top, two boxes represent the base classes: 'DynamicObject' on the left and 'IEnumerable< object >' on the right. Below them, a third box represents the derived class: 'System.Web.Helpers.DynamicJsonArray'. A horizontal line with upward-pointing arrows at both ends connects the two top boxes, indicating that 'DynamicObject' inherits from 'IEnumerable< object >'. A vertical line descends from the center of this horizontal line to the top of the 'System.Web.Helpers.DynamicJsonArray' box, indicating that 'DynamicJsonArray' inherits from 'DynamicObject'.
