

Cqrs.Configuration.IDependencyResolver

```
classDiagram
    class IDependencyResolver["Cqrs.Configuration.IDependencyResolver"]
    class NinjectDependencyResolver["Cqrs.Ninject.Configuration.NinjectDependencyResolver"]
    class TestDependencyResolver["Cqrs.Tests.Substitutes.TestDependencyResolver"]
    class AkkaNinjectDependencyResolver["Cqrs.Ninject.Akka.AkkaNinjectDependencyResolver"]
    IDependencyResolver <|-- NinjectDependencyResolver
    IDependencyResolver <|-- TestDependencyResolver
    NinjectDependencyResolver <|-- AkkaNinjectDependencyResolver
```

The diagram illustrates the inheritance hierarchy for the `IDependencyResolver` interface. At the top is the `Cqrs.Configuration.IDependencyResolver` interface. Below it are two concrete implementations: `Cqrs.Ninject.Configuration.NinjectDependencyResolver` and `Cqrs.Tests.Substitutes.TestDependencyResolver`. The `NinjectDependencyResolver` class further inherits from `Cqrs.Ninject.Akka.AkkaNinjectDependencyResolver`.

Cqrs.Ninject.Configuration.NinjectDependencyResolver

Cqrs.Tests.Substitutes.TestDependencyResolver

Cqrs.Ninject.Akka.AkkaNinjectDependencyResolver
